High Power (45W) indoor Cell phone Jammer +Omni Directional Antennas JM110875  
2023/06/29

The High Power (45W) indoor Cell phone Jammer + Omni Directional Antennas are designed for an indoor cell phone jammer. The jamming device is a high power one that efficiently blocks the cell phone signal. It has been widely used in some small area prison jamming systems and some sensitive locations. The device can block four channels, including CDMA: 850-960MHz, GSM: 1805-1880MHz, GSM: 1920-1990MHz, and 3G: 2110-2170MHz. The high output power of up to 45 watts allows the jammer to interfere effectively. The cooling fan design keeps the interference system in a constant cooling state. In the summer, you don't have to worry about the higher heat that can cause the system to run uninterrupted. Its safe design ensures that damage is avoided. Using various high-gain Omni directional antennas, you can select different channels. The shielding range is up to 100 meters, and it is easy to operate and install indoors. If you are looking for equipment and want to use it indoors, you can stop here. This high power (45W) indoor jammer with an Omnidirectional antenna is perfect for you. Here, just put it in the shopping cart
